D. BACKGROUND AND EXPERIENCE

Please briefly present the partner organization

Asociación Extremundo is a non-profit organization, officially established in November 2020 and based in the Spanish region of Extremadura. In a few words, it aims to provide a better quality of life to all its citizens through local, regional, national, European & international project management.

As indicated in the approved statutes by the Government of Extremadura, its main objectives are:

- 1) To develop the Extremaduran region through local, regional, national, European and/or international opportunities for youth and adults, promoting an active citizenship and an intergenerational participation at the same time;
- 2) To offer a general or specific empowerment to the Extremaduran population interested in European and/or international topics;
- 3) To design and to implement local, regional, national, European and/or international projects, in order to benefit the urban and rural citizens of Extremadura;
- 4) To promote the European and/or international volunteering inside and outside the Extremaduran borders;
- 5) To promote an entrepreneurial learning - including the social one - at the local and regional levels.

What are the activities and experience of the organization in the areas relevant for this application?

Due to the fact that Asociación Extremadura was recently created, it cannot show any activity or experience as an entity yet; but regarding its team members it highlights that:

- 1) They have got professional experience in countries like Spain, Italy, Romania or Portugal;
- 2) In September 2010, they started founding and developing NGOs (ESN UEx, OEB Badajoz, Ingefiex, Asociación Extremundo or Equipo Europa, among others);
- 3) From December 2014 until now, they participated and participate - individually, but also as Active Members of the Youth Council of Extremadura - in many Erasmus+/international events such as conferences, seminars, training courses or youth exchanges, just because they really believe in Europe as a "tool" to improve any kind of society;
- 4) They have already been in almost 30 countries to learn about different and interesting topics - diplomacy, entrepreneurship, environment, European citizenship, ICT, project management, women empowerment, youth policies, etc. - for European and non-European citizens, so they are always able to continue traveling globally to share useful information, but also to create new networking opportunities. They all can offer their well-developed personal networks from all over the world, since they work on them, day by day, for more than 10 years.

What are the skills and expertise of key staff/persons involved in this application?

Joaquín Martín de Saavedra Rojas – President
